

Holyiot IoT sensor List

Web: www.holyiot.com Email: abby01@hyyunjia.com & spring@holyyiot.com

Module No.	Nordic chipset	Photo	Spes
YJ-17006	nRF52832	 <p>The image shows a rectangular black PCB with various components. A blue 'holyyiot' logo is in the top left. The PCB has a central chip, several resistors, and a small antenna. The text 'YJ-17006-nRF52832' is printed on the board.</p>	<p>Brand: Holyiot Module No.: YJ-17006 Accelerometer Gyro sensor :BMI160 Geomagnetic sensor : BMM150 Humidity/temperature/ air pressure sensor: BME280 Size: 37mm*24mm SWD programmer (SWDIO,SWCLK,VDD,GND) BLE stack & RF 2.4Ghz PCB antenna Battery: CR2032</p>
YJ-16041	nRF51822 or nRF52832	 <p>The image shows a circular black PCB. A blue 'holyyiot' logo is in the top left. The PCB features a central chip, a button, and an LED. The text 'YJ-16041-nRF51822' is printed on the board.</p>	<p>Brand: Holyiot Module No.: YJ-16041 Humidity/temperature: HTS221 Size: 24.5mm SWD programmer (SWDIO,SWCLK,VDD,GND) BLE stack & RF 2.4Ghz PCB antenna 1XButton 1xLED Battery: CR2032</p>
YJ-16060	nRF51822	 <p>The image shows a circular black PCB, similar to the previous one. A blue 'holyyiot' logo is in the top left. The PCB features a central chip, a button, and an LED. The text 'YJ-16060-LPS22HB' is printed on the board.</p>	<p>Brand: Holyiot Module No.: YJ-16060 air pressure:LPS22HB Size: 24.5mm SWD programmer (SWDIO,SWCLK,VDD,GND) BLE stack & RF 2.4Ghz PCB antenna 1XButton 1xLED Battery: CR2032</p>
